### Poster Gallery Walk

During the gallery walk, you will use post it notes to add comments to each poster. Comment 1 should be one thing the designer does well to show us the location or conditions on their world. Comment 2 should be a suggestion from you to make their poster more compelling to the viewer.

### **How does the position of my world effects conditions on that world?**

While viewing the posters also answer the following questions.

1. Which title, if any, really told you the connection of this world and its location \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
2. Re-write your title to address the objective of your poster. \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
3. Sketch the diagram which best helped you understand where this world is in our solar system.

Why was this diagram most helpful? \_\_\_\_\_
