Period: _____

Review - Pregnancy

1. What is the path an egg takes from ovulation to embryo?
2. List 3 barriers or challenges the sperm encounters on its journey to meet the egg?
3. How does the egg prevent more than one sperm from fertilizing it?
4. The blastocyst will eventually divide into 3 layers. What do each of the layers produce?
5. What 2 reasons cause childbirth in humans to be more dangerous than other animals?
6. On the back, using RATE, Defend the idea that the first trimester of pregnancy is best defined by the word FOUNDATION.
